Megalodon - Wikipedia

Megalodon (*Otodus megalodon*), meaning "big tooth", is an extinct species of shark that lived approximately 23 to 3.6 million years ago (mya), during the Early Miocene to the Pliocene. It was formerly thought to be a member of the family Lamnidae and a close relative of the great white shark (*Carcharodon carcharias*).

Species: †*O. megalodon*

Genus: †*Otodus*

Order: Lamniformes

Phylum: Chordata

Mineral and Fossil Pricing

We buy in bulk to get the best pricing – then mark-up the pieces to cover trip expenses, warehouse costs, breakage, shipping, etc. For some minerals – the prices are 75% off what you will find in a mineral shop. Our goal is to be significantly under the retail price. Prices in this PDF are estimates.

Dropbox link to more pictures.

Assorted Fossils and Minerals – some of these will be at Steve's
